

Recommended Equipment... Dehydrators

By [Pamela Smith Staples](#) on Sunday, July 28, 2013 at 11:32am

Can't say enough about my Excaliber 9 tray dehydrater! I can dry anything from herbs to jerky in it and it always does a great job. I love being able to set the timer on it and forget about it. They are not cheap but well worth the money and as an added bonus they are made in America.
